

fxphd curriculum grid

Courses planned for repeating in the July10 Term

This grid only includes planned repeat courses (repeat courses are courses that have run in the past). More repeat courses may be added to the terms based upon requests from members. In addition to repeats, there are approximately 12 new courses each term. New courses are announced at the start of the new term, generally on the first day of the month. fxphd reserves the right to change which courses are repeated or not -- but we try to make sure this doesn't happen.
